This General Plan/EIR is a an integrated General Plan (Section 15166 of the CEQA Guidelines) and tiered EIR (Section 115152 of the CEQA Guidelines) that delineates management zones and a set of goals and guidelines that will guide park management, future specific management plans and projects, and implementation. These goals and guidelines address recreational, operational, interpretive, and resource management opportunities and constraints consistent with the classifications of State Park, State Wilderness, and Cultural Preserve, as set forth in Section 5019.53, 5019.68, and 5019.74 of the Public Resources Code and with Department Resource Management Directives. The General Plan/EIR does not actually locate or design facilities, but instead provides goals and guidelines for the appropriate types, locations, and designs of facilities that may be proposed in the future.
